INDEX TO ROCK PRODUCTS, 1958, VOL. 61

A

ACL process
—How I look at the ACL system, July .. 82
—Making cement with pellets, May 75
—New process goes in, results look good, May 122
Advertising—sales promotion
—You needn't spend a fortune to advertise successfully, December 72
Africa
—Lime production, September 134
Aggregates—(also see crushed stone, sand and gravel and slag)
—1958 crushed stone forecast, January .. 86
—1958 sand and gravel forecast, January. 84
—Aggregate for Aussie dam carried 12 miles on aerial ropeway, October 116
—Bucket drill pinpoints deposit, July ... 86
—Bucket drill yields superior data, June .103
—Conveyor system spans river, February 102
—Crushing dolomite eases sand shortage, October 96
—Dam construction opens rock markets, June 84
—Flocculation, December 80
—Formula for expansion, February 140
—Heavy-media separation boosts gravel value, May 126
—Heavy media separation plant, February 114
—How to solve a zoning problem, September 82
—Indiana Mineral Aggregates Assn. meeting, June 108
—Jigs separate gold and aggregates, March 114
—Land rehabilitation, April 62
—Plant features high specification output, February 150
—Plant features screening, crushing, washing in one tower, September.....131
—Plant solves specification, water problems, August 78
—Plant turns huge hill into roadbed, May 138
—Portable processing units, March 96
—Producers battle rising costs, September 92
—Rising freight rates, July 74
—Selling the community sells Ohio Gravel, June 82
—Setting up a power system? October ..102
—Small plant used as core for big one, December 110
—Stone plant meets twin needs, July ... 90
—Tailor-made design cuts plant's maintenance, June 91
—Tie efficiency to equipment selection, August 76
—Warner Co. uses stope mining methods, January 132
—What's new in the West? October 98
—Why wash aggregates?
—Part 1. August 74
—Part 2. October 92
—Part 3. November 82
—Part 4. December 84
Aggregates, Lightweight
—Materialite invades Chicago area, July 78
Agricultural limestone
—Field needs aggressive promotion, uniform standards, May 152
—NALI, 13th annual convention, April..108
Air pollution
—Dust control comes to Lehigh Valley, May 81
Alpha Portland Cement Co. opens Lime Kiln, Md., plant, November 108
American Aggregates Corp., Greenville, Ohio, uses land rehabilitation, April .. 62
American Cement Corp., Los Angeles, Calif., unique merger, August 68
American Gilsonite Co., Bonanza, Utah, licks haulage problem, March 106
American Mining Congress, 1958 Mining Show, December 106
Ammonium nitrate
—AMC discusses blasting, December ...106
—New blasting technique cuts costs, December 70
Andrews, Peter B. B.
—Economist predicts: Construction rise and record spending in '58, January.. 90
Asbestos
—Air separates fiber from rock, July .. 89
Asbestos Corp., Black Lake, Quebec, uses air to separate fiber from rock, July .. 89
Australia
—Aggregate for dam carried 12 miles on aerial ropeway, October 116
—Lime production, July 94
Automation
—Kiln burning, June 74
Azbe, Victor J.
—Lime around the world -
—Part 1. Itinerary, February 110
—Part 2. Australia, July 94
—Part 3. Africa, September 134

B

Ball mills
—Efficiency can be improved
—Part 3. January 151
—Wet grinding—past, present, future, August 102
Basic Construction Materials Co., Chillicothe, Ohio, conveyor system crosses river, February 102
Bell, Joseph N.
—Air pollution laws come to Lehigh Valley, May 81
—Amazing Henry J—rock products individualist, October 86
—American's unique merger, August ... 68
—Depreciation—you and the tax boys, June 70
—How to solve a zoning problem, September 82
—Philosophy of George Pettinos, April . 72
—You can do something about rising freight rates, July 74
—You needn't spend a fortune to advertise successfully, December 72
Blasting
—AMC discusses blasting, December 106
—Damage claims, March 94
—Jet-flame piercing process, October .. 85
—New development in ammonium nitrate, December 70
Blyth & Co., cement industry analysis, December 76
A. Braithwaite & Co. Ltd., Knaresborough, Yorkshire uses floating conveyors, June 98
Business management
Business review and outlook
—Construction and spending, January .. 90
—Legislation, January 94
—Rock Products forecast, January 78

C

Calaveras Cement Co.
—San Andreas, Calif., plant brings automation to kiln burning, June 74
—Quarry is scene of demonstration of new blasting technique, December 70
California Portland Cement Co., Mojave, Calif., plant uses industrial television, November 74
Case history study of 10 new cement plants, May 87
—Raw materials handling system 88
—Simple, flexible plant features few units 90
—Huge 450-ft. kiln boosts production .. 94
—Expansion plans were built in 98
—Rod mill crushes limestone for wet process 102
—Vast reserves prompted building of plant 106
—Plant called most efficient in North America 110
—Emphasis on big equipment, no standbys 114
—Small plant's boast: few men, high output 118
—New process goes in, results look good.122
Cement—(also see cement plants, kilns)
—ACL process, July 82
—Activities of Henry J. Kaiser, October 86
—Air pollution laws come to Lehigh Valley, May 81
—Alpha opens plant to serve Baltimore area, November 108
—Automation comes to kiln burning, June 74
—Ball mill efficiency can be improved, January 151
—Cement industry has built-in future, December 76
—Electrostatic precipitators, July 104
—Emphasis here on big equipment, no standbys, May 114
—Future expansion plans were built in, May 98
—Glass bags: an answer to kiln dust problem, December 104
—Huge 450-ft. kiln really boosts production, May 94
—Industry forecast, January 81
—Industry needs more large-scale modernization, May 79
—Planning a safety campaign? September 126
—Lake Ontario ships cement and stone to huge markets, October 80
—Lone Star builds with room for expansion, March 100
—Making cement with pellets, May 75
—Merger of Hercules, Peerless and Riverside, August 68
—New process goes in, results look good, May 122
—New wrinkle in cement loading stations, November 125
—One man, eight TV cameras control cement making from crusher to raw storage, November 74
—PCA shows off new structural and fire test labs, November 88
—Plant called most efficient in North America, May 110
—Raw materials handling system, May.. 88
—Recent industry trends, May 84
—Rocky's notes, September 17
—Rod mill crushes limestone for wet process, May 102
—St. Lawrence Cement Co. builds Canada's most modern plant, February .. 94
—Simple, flexible plant features few units, May 90
—Small plant's boast: few men, high output, May 118
—Steam licks gas sampling problem, August 82
—To win a market, get there first with the most, September 88
—Vast reserves prompted building plant, May 106
—Wet grinding—past, present, future, August 102
—X-rays aid in process control, March . 91
Cement plants
—Alpha Portland Cement Co. opens Lime Kiln, Md., plant, November 108
—American Cement Corp.'s unique merger, August 68
—Calaveras Cement Co. brings automation to kiln burning, June 74
—California Portland Cement Co. uses industrial television, November 74
—Diamond Portland Cement Co. uses ACL process, May 75
—Dragon Cement Co. licks gas sampling problem, August 82
—Emphasis here on big equipment, no standbys, May 114
—Future expansion plans were built in, May 98
—Huge 450-ft. kiln really boosts production, May 94
—Lake Ontario Portland Cement Co. Ltd., Picton, Ont., plant, October 80
—Lehigh Portland Cement Co., Union Bridge, Md. plant expands, September 88
—Lone Star Cement Corp., March 100
—New process goes in, results look good, May 122
—Plant called most efficient in North America, May 110
—Raw materials handling system, May . 88
—Rod mill crushes limestone for wet process, May 102
—Riverside Cement uses X-rays, March 91
—St. Lawrence Cement Co., Clarkson, Ont. plant, February 94
—Simple, flexible plant features few units, May 90

ROCK PRODUCTS INDEX

(Continued from page 162)

Cement Plants (continued)
—Small plant's boast: few men, high output, May 118
—Southwestern Portland Cement Co., El Paso, Texas, and Victorville, Calif., plants use glass bags for kiln-dust collection, December 104
—Vast reserves prompted building plant, May 106
Chicago and North Western Railway System, quarry at Rock Springs, Wis., November 78
Classifying systems
—Casitas Dam gives classifiers a workout, March 128
—Upgrading marginal deposits, September 109
Clayton Silica Co., Cedar Rapids, Iowa, goes underground for pure white silica, June 78
Compressed air
—Care and maintenance of air compressors, October 128
—Keeping water out of air lines, February 133
Construction activity
—Outlook for 1958 rock products industry, January 90
Conveyors
—Help recover "lost" gravel, June 98
—Spans river to connect pit, plant, February 102
Cooley Gravel Co., Denver, Colo., uses dredge, May 148
Crushed stone
—Aggregate for Aussie dam carried 12 miles on aerial ropeway, October 116
—Crushing dolomite eases sand shortage, October 96
—Flocculation, December 80
—How to solve a zoning problem, September 82
—Industry forecast, January 86
—NCLI 3rd annual convention, April ...112
—NCSA, 41st annual convention, April .105
—NCSA, board of directors meeting, October 120
—NCSA convention preview, January ...118
—Oil squeezed from shale, April 76
—Plant features high specification output, February 150
—Plant meets twin needs, July 90
—Plant sets new sizing standards, February 106
—Plant turns huge hill into roadbed, May 138
—Quartzite for railroad ballast, November 78
—Rising freight rates, July 74
—Setting up a power system? October ..102
—Stope mining methods, January 132
—Tie efficiency to equipment selection, August 76
—Why wash aggregates?
—Part 1. August 74
—Part 2. October 92
—Part 3. November 82
—Part 4. December 84
—World's largest jaw crusher? December 79
Crushed stone plants
—A. Braithwaite & Co. Ltd. uses floating conveyors, June 98
—Chicago and North Western Railway System's own quarry produces quartzite for railroad ballast, November 78
—General Crushed Stone Co. sets new sizing standards, February 106
—Huge crusher in use in Merlebach quarry of Houilleres du Bassin de Lorraine (France), December 79
—Jeffrey Stone Co. meets twin needs, July 90
—Lambert Bros. designs, fabricates steel for its own plant, October 96
—Metropolitan Water Sewerage and Drainage Board of Sydney, Australia, October 116
—Oolite Crushed Stone Co., August 76
—Quarve and Anderson turns huge hill into roadbed, May 138
—Union Sand & Gravel Co., February ...150
Curtis Construction Co. supplies aggregates for Rocky Reach dam, Wenatchee, Wash., December 110

D

Dams
—Aggregate for Australian dam, October 116
—Aggregate for Rocky Reach dam, Wenatchee, Wash., December 110
—Construction opens rock markets, June 84
Day, Ray
—Stone plant meets twin needs, July ... 90
Depreciation
—Editor's page, March 15
—You and the tax boys, June 70
Diamond Portland Cement Co., Middle Branch, Ohio uses ACL process, May .. 75
Doctorman, V.C.
—Wollastonite spun into rock wool, August 80
Dolomite
—Crushing dolomite eases a sand shortage, October 96
Dragon Cement Co., Siegfried, Pa. licks gas sampling problem, August 82
Dredging
—Dredge of ideas, May 148
Drilling
—Bucket drill pinpoints aggregates in deposit, July 86
—Bucket drill yields superior data, June 103
—Get more output from your rotary drill, August 96
—Jet-flame piercing process, October .. 85
Dust collectors
—Design and functions of electrostatic precipitators, July 104
—Glass bags: an answer to kiln dust problem, December 104
—Gypsum plant licks dust problem, November 106
—St. Lawrence Cement Co.'s bagging and bulk loading station, Montreal, November 125
Dust control
—Air pollution laws come to Lehigh Valley, May 81
—Barbed electrodes, April 101

E

Editor's Page
—"Efficiency" is a big word this year, January 15
—Illegitimus non carborundum!, February 17
—Tax regulation hampers industry expansion, March 15
—This change in policy is paying dividends, April 15
—Cement industry tackles new problems, May 19
—Your responsibilities will grow and grow, June 17
—Wanted: more education on our economy, July 19
—Revolution in industrial management, August 18
—Better check your "fringe" payments, September 15
—Remember the "little" economies, October 17
—Industry research needs your support, November 17
—Reduce contract troubles and save money, December 16
Efficiency
—Aggregate producers battle rising costs, September 92
Electrostatic precipitators
—Design and functions, July 104
Equipment efficiency
—Trend to larger units, September 101
Expanded Clay and Shale Association
—Convention report, April 115
Expansion
—Future expansion plans were built in, May 98
—Small plant used as core for big one, December 110
—To win a market, get there first with the most, September 88

F

Feed control
—Operation improvement, September ..113
—These trends are cutting rock plant costs, September 98
Flintkote Co.
—Builds $2 million U.S. Lime Products Corp. plant at Apex, Nev., November 90
—Enters gypsum market with plant at Sweetwater, Texas, April 66
Flocculation—chemical solution to slime settling problems, December 80
Foley Bros., contract operators of Chicago and North Western Railway System quarry, November 78
Forecast for 1958
—Construction and spending, January .. 90
—Legislation, January 94
—Review and outlook, January 78
Freight rates
—NSGA convention, April 82
—Rocky's notes, March 16
—You can do something about rising freight rates, July 74
Freymann, Victor F., and George J. Halbart
—Ball mill efficiency can be improved, January 151

G

Gas sampling
—Steam licks gas sampling problem, August 82
Gasque, J. M., and V. G. Murdock
—Setting up a power system? October 102
General Crushed Stone Co., Easton, Pa., sets new sizing standards, February ..106
Gillson, Joseph L.
—Where's all our raw material going to come from? February 105
Gilsonite
—Pipeline licks haulage problem, March.106
Glancy, Robert
—Portable units extend gravel plant's operation, March 96
Glass bags: an answer to kiln dust problem, December 104
Glass sand—see silica
Golson, C.E., and I.S. Thyle
—Heavy media separation boosts gravel value, May 126
Gravel—(see sand and gravel)
Grinding mills
—Ball mill efficiency can be improved, January 151
Gustafson, A.N.
—How to keep water out of air lines, February 133
Gypsum
—Flintkote enters market, April 66
—Plant licks dust problem, November ..106
Gypsum plants
—The Flintkote Co. enters market, April 66
—U.S. Gypsum Co.'s River Rouge, Mich., plant licks dust problem, November ..106

H

Haaland, H. H., and R. J. Plass
—Electrostatic precipitators, July 104
Halbart, George J., and Victor F. Freymann
—Ball mill efficiency can be improved, January 151
Hammon, Stratton
—Blast damage claims going up? March 94
Hard-facing is major factor in increasing operating efficiency, November 112
Hauser, Karl
—How I look at the ACL system, July.. 82
Heavy-media separation
—Boosts gravel value, May 126
—In the West, October 98
—Saticoy Rock Co. installation, February 114
—Upgrading marginal deposits, September 219
Heck, John J.
—Bucket drill yields superior data, June 103
Hercules Cement Corp., Stockertown, Pa., merger with Peerless, Riverside, August 68
Highway program, federal
—Discussed at NCLI convention, April..112
Houilleres du Bassin de Lorraine (France), Merlebach quarry uses huge crusher, December 79

I

Indiana Mineral Aggregates Assn.
—Meeting accents prospecting, public relations, June 108
Industrial sand
—Going underground for pure white silica, June 78
—NISA, 23rd annual meeting, August ..113
—Philosophy of George Pettinos, April . 72
—Western progress report, January 141
Internal revenue service
—Depreciation—you and the tax boys, June 70
—Tax I.Q. test, February 100
Isotopes
—Potential new tools for rock industry, August 86

J-K

Jaw crusher—world's largest? December .. 79
Jeffrey Stone Co., North Little Rock, Ark., meets twin needs, July 90
Jet flame attacks, melts toughest rock, October 85
Jigs
—In the West, October 98
—Separate gold and aggregates, March ..114
—Standard Slag Co. uses four jigs and disintegrator to upgrade deposit, November 96
—Upgrading marginal deposits, September 219
Kaiser, Henry J., The amazing, October .. 86
Kaiser Sand and Gravel Div., part of Kaiser industrial empire, October 86

(Continued on page 166)

ROCK PRODUCTS INDEX

(Continued from page 164)

Kearney, Kathleen
—Planning a safety campaign? September 126
Kilns, cement
—Automation comes to kiln burning, June 74
—Tire-roller placement
—Part 1. February 120
—Part 2. October 135

L

Lake Ontario Portland Cement Co. Ltd., Picton, Ont., plant ships cement and stone to huge markets, October 80
Lambert Bros. Div., Vulcan Materials Co., Maryville, Tenn., October 96
Land rehabilitation
—American Aggregates Corp., April .. 62
Legislation
—Action to increase ag-lime sales, April 108
—Here's what you can expect from congress, January 94
Lehigh Portland Cement Co., Union Bridge, Md., plant expands, September 88
Lenhart, Walter B.
—Casitas Dam gives this classifying system a work out, March 128
—Dredge of ideas, May 148
—Flocculation—chemical solution to your slime settling problems, December 80
—Industrial sand in the West, January 141
—More dams abuilding—more rock markets opening, June 84
—One man, eight TV cameras control cement making from crusher to raw storage, November 74
—Screening, crushing, washing in one tower, September 131
—Squeezing oil from shale, April 76
—Tie efficiency to equipment selection, August 76
—What's new in the West? October .. 98
—X-rays: new aid for cement process control, March 91
Lime
—Around the world
—Part 1. Itinerary, February 110
—Part 2. Australia, July 94
—Part 3. Africa, September 134
—Industry forecast, January 88
—Mercer Lime stresses efficiency, March 110
—NLA convention accents lime stabilization of soils, July 120
—NLA operating division meeting, December 88
—Preheater and contact cooler boost efficiency of plant, November 90
—Quick way to find unhydrated magnesia in hydrated lime, November 87
—Rocky's notes, April 17
Limestone
—Warner Co. uses stope mining methods, January 132
Lindsay, George C.
—Cement company aids Ontario's booming economy, February 94
—New blasting technique cuts costs, December 70
Lone Star Cement Corp., Lake Charles, La., plant is built for expansion, March 100

S

Safety
—Planning a safety campaign? September 126
St. Lawrence Cement Co.
—Clarkson, Ont., plant, February 94
—Cement distribution center, Montreal, November 125
St. Lawrence Seaway, use of jet-flame piercing process, October 85
Samzelius, J.W., R.F. Woll
—Servicing induction motors
—Part 1. March 118
—Part 2. July 112
Sand and gravel
—Activities of Henry J. Kaiser, October 86
—Aggregate for Aussie dam carried 12 miles on aerial ropeway, October 116
—Bucket drill yields superior data, June 103
—Casitas Dam classifying system, March 128
—Conveyor system spans river, February 102
—Crushing dolomite eases sand shortage, October 96
—Dam construction opens rock markets, June 84
—Disintegrator, four jigs upgrade deposit, November 96
—Dredge of ideas, May 148
—Floating conveyors help recover "lost" gravel, June 98
—Flocculation, December 80
—Formula for expansion, February 140
—Heavy-media separation boosts gravel value, May 126
—Heavy-media separation plant, February 114
—How to solve a zoning problem, September 82
—Industrial sand in West, January 141
—Industry forecast, January 84
—Jigs separate gold and aggregates, March 114
—Land rehabilitation, April 62
—NSGA, 42nd annual convention, April. 82
—NSGA board of directors meeting, December 96
—NSGA convention preview, January .. 98
—Philosophy of George Pettinos, April . 72
—Plant features high specification output, February 150
—Plant solves specification, water problems, August 78
—Portable processing units, March 96
—Rising freight rates, July 74
—Screening, crushing, washing in one tower, September 131
—Selling the community sells Ohio Gravel, June 82
—Setting up a power system? October ..102
—Small plant used as core for big one, December 110
—What's new in the West? October 98
—Why wash aggregates?
—Part 1. August 74
—Part 2. October 92
—Part 3. November 82
—Part 4. December 84
Sand and gravel plants
—American Aggregates Corp. uses land rehabilitation, April 62
—Basic Construction Materials Co., conveyor system crosses river, February ..102
—A. Braithwaite & Co. Ltd. uses floating conveyors, June 98
—Cooley Gravel Co. uses dredge, May .148
—Curtis Construction Co. supplies aggregates for Rocky Reach dam, Wenatchee, Wash., December 110
—Lambert Bros. designs, fabricates steel for its own plant, October 96
—Metropolitan Water Sewerage and Drainage Board of Sydney, Australia, October 116
—Ohio Gravel Co., public relations program, June 82
—Pacific Clay Products Co., January ..141
—Rockdale Stone, Inc., September 131
—Saticoy Rock Co. installs HMS plant, February 114
—J.R. Simplot Co., January 141
—Standard Slag Co. uses disintegrator, four jigs to upgrade deposit, November 96
—Stouffville Sand and Gravel, Ltd., August 78
—Straits Aggregate and Equipment Co., uses portable plants, March 96
—Union Sand & Gravel Co., February ...150
Saticoy Rock Co., Ventura, Calif., installs HMS plant, February 114
Shale
—Oil squeezed from shale, April 76
Silica
—Going underground for a pure white silica, June 78
J.R. Simplot Co., Overton, Nev. plant, January 141
Southwestern Portland Cement Co. uses glass bags for kiln-dust collection, December 104
Standard Slag Co., Massilon, Ohio, uses jigs, disintegrator to upgrade deposit, November 96
Stevens, Robley D.
—How to solve grievance complaints, October 126
—Need new ideas? Suggestion box is one answer, November 120
Stope mining
—Warner Co., January 132
Stouffville Sand and Gravel, Ltd., Stouffville, Ont., August 78
Straits Aggregate and Equipment Co., Millersburg, Mich., uses portable units, March 96
Sutton, M.C., and Lewis A. Parsons
—Automation comes to kiln burning, June 74

T

Taxes
—Depreciation—you and the tax boys, June 70
—Editor's page, March 15
—NSGA convention, April 82
—Test your tax I.Q., February 100
Television
—Used by California Portland Cement Co., November 74
Thyle, I.S., and C.E. Golson
—Heavy-media separation boosts gravel value, May 126
Tilley, William R.
—Here's a quick easy way to find unhydrated MgO content in hydrated lime, November 87

U-V-W

Union Oil Company of California, Grand Valley, Colo., squeezes oil from shale, April 76
Union Sand & Gravel Co., Spokane, Wash., Yardley plant, February 150
United States Lime Products Corp. plant built by Flintkote Co., Apex, Nev., November 90
United Waterways Constructors, Ltd., uses jet-flame piercing process, October 85
Vulcan Materials Co., Lambert Bros. Div., Maryville, Tenn., October 96
Walter, Leo
—Aggregate for Aussie dam carried 12 miles on aerial ropeway, October 116
—Floating conveyors help recover "lost" gravel, June 98
—Is this jaw crusher the world's largest? December 79
—Isotopes, potential new tools for rock industry, August 86
Warner Co., Bellefonte, Pa., plant uses stope mining methods, January 132
Washing
—Flocculation, December 80
—Plant solves specification, water problems, August 78
—Stone plant features screening, crushing, washing in one tower, September 131
—These trends are cutting rock plant costs, September 98
—Why wash aggregates?
—Part 1. August 74
—Part 2. October 92
—Part 3. November 82
—Part 4. December 84
Wecker, W. A.
—Cement industry needs more large-scale modernization, May 79
Wells, J. M.
—Bucket drill pinpoints aggregates in deposit, July 86
Wight, H. H.
—Tire-roller placement determines rotary kiln performance
—Part 1. February 120
—Part 2. October 135
Woll, R.F., and J.W. Samzelius
—Servicing induction motors
—Part 1. March 118
—Part 2. July 112
Woolstone, Inc., Blythe, Calif. spins wollastonite into rock wool, August 80
R. H. Wright & Son, Fort Lauderdale, Fla., cuts plant's maintenance, June 91

X-Y-Z

X-rays
—Aid in cement process control, March. 91
Yuba Consolidated Gold Fields, Marysville, Calif., jigs pay own way, March ..114
Ziemke, Paul C.
—Get more output from your rotary drill, August 96
Zoning
—Activities of Henry J. Kaiser, October 86
—How to solve a zoning problem, September 82
—NSGA convention, April 82
—Rewards of land rehabilitation, April. 62
Zvanut, Albert J.
—Cut costs, try hard-facing, November 112

END

A word about your ROCK PRODUCTS index . . .

This index has been prepared for your convenience in locating articles appearing in ROCK PRODUCTS during 1958. We hope you will find it useful. Articles are indexed by subject and author, and are cross-indexed under as many major topics as are contained in them—these include processes, equipment, personalities, forecasts, plant and company names, type of product, ideas and methods. You will also find Rocky's Notes and Editor's Page indexed in the above manner.
